- High Speed SPDF capable of handling high demand scan jobs
- Print from any device, anywhere with Smart Device connectivity via AirPrint, Mopria and Ricoh applications

Designed to enhance your performance.

Compact solution. With hidden depths.

Each MFP's compact nature means you can position them almost anywhere in an office or branch environment. And there's always a place for these simple to set-up and easy-to-use, yet advanced devices. The powerful Intel processor gives the devices the capability to run enhanced software faster so you can start using them quickly and make the most out of their intuitive interface.

Reduce costs in a powerful way.

Offering a low Total Cost of Ownership combined with a level of output that will help you reach your goals, you get low power consumption and a quick warm-up from sleep mode. This leaves no time wasted waiting for them to start. Each model is low maintenance to save you even more on costs. In fact, their typical energy consumption is the best in their class.

Make every connection.

With today's world being more connected than ever, this range of models enable you to quickly and securely send documents to print from your mobile smart device. You can even share files with address book contacts. The connection options support Windows, Mac, Linux, iOS and Android and you can easily connect without the need to first register your device or join the network.

The technology to do even more.

These devices help you work better and more flexibly. And of course, they give you everything you would expect from an A4 colour MFP. Jobs are completed more quickly with fast processing and the easy operation our Smart Operation Panel offers. So they're smarter, quicker and more intuitive. Which all add up to tangible improvements to your productivity and output.
