Multifunction

Workgroup

The compact network MFP with fast speeds and low printing costs.

High-productivity colour printing — the A4 colour multi-function WorkForce Pro WF-C579R, powered by PrecisionCore[®]

Easy on your budget — high capacity inks translates into low colour printing costs

Minimise your interventions — Replaceable Ink Pack System with Extra High-capacity packs lets you print up to 50,000 ISO pages black/20,000 ISO colour without changing the ink packs²; paper capacity up to 1,330 pages with optional trays

Fast print speeds; no warmup time — 24 ISO ppm (black/colour)[†]; zero second warm-up time, plus fast first page out

Do more — 50-page automatic document feeder with single-pass 2-sided copying, scanning, emailing and faxing; scan to email and more. Scan speed of up to 30 ppm, 60 images per minute improves workflow

Enhance your productivity — compact design for an efficient, de-centralised workgroup print solution

Drivers and utilities — PC/Mac[®], PCL¹, PostScript 3, Epson[®] Device Admin and Epson Document Capture Pro

Open-platform ready — seamless integration with enterprise applications such as PaperCut MF, Equitrac, eCopy and other ISV solutions

Security features — PIN number configuration for job release; user control access, printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec

Save energy, reduce emissions — up to 87% lower energy than laser, save electricity, reduce CO₂

Designed for use exclusively with Epson ink packs.*

† Black and colour print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com.au | †† Maximum print speeds are measured with text patterns in Draft Mode on plain paper. Actual print times will vary based on factors including system configuration, software, and page complexity. | ††† Black and colour copy speeds (cpm) are determined in default, single-side mode, in accordance with ISO/IEC 29183. Actual copy times will vary based on factors including system configuration and page complexity. For more information, visit www.epson.com.au | 1 Not all media types are supported for PCL printing. | 2 Replacement ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Ink pack yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. All ink colours are used for printing and printer maintenance, and all colours have to be installed for printing. For print quality, part of the ink from the included ink packs is used for printer startup and a variable amount of ink remains in the ink pack after the "replace ink pack" signal. For details, see www.epson.com.au | 3 Monthly duty cycle up to 45,000 is the highest duty a user could expect in a month, based on near constant operation of a device of this kind. It is not recommended that the device be run at this duty. For best device performance, run the device at the recommended duty of 2,500 pages per month. | 4 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com.au | 5 Scan to cloud requires an internet connection, a free Epson Connect account and a destination email address or cloud storage account. For a list of supported cloud services, visit www.epson.com.au | 6 Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software. | 7 Only printing and scanning are supported under Windows Server OS. | 8 Some applications and/or functions may not be supported under Mac OS X. | 9 Internet access is required to install all OS drivers and software. | 10 For convenient and reasonable recycling options, visit www.epson.com.au |

* Epson WF-C579R produces up to 87% less electricity when printing compared with 33 A4 colour MFPs in the 21 to 44ppm market as at 1 December 2018
