## When you need to work together - don't let distance come between you

Hybrid working and learning has become a daily process for many people. Nowadays, people join meetings and training from multiple locations as standard and the need to collaborate remotely has never been greater.

Make meetings and classes collaborative wherever they are, with the new Ricoh Interactive Whiteboards.

The new IWB A Series is designed to make collaboration work for you.

### Key features

- Android embedded built-in
- Expandable with Windows controller
- A set of pre-installed applications
- Simple connectivity
- Wired & wireless content sharing

### For business

### For education

## Designed for business

With its easy-to-use interface and built-in Apps, the new whiteboards offer seamless communication and collaboration. Ideal for hybrid working, allowing multiple people to write on the same screen.

Save time taking minutes and notes, you can capture annotations in real-time. Cast multiple screens wirelessly at any time and maximise collaboration.

## Built for education

With remote learning and collaboration the new normal, hybrid classrooms must allow real-time participation and information sharing with inperson and remote attendees allowing external sources into the classroom.

Our interactive whiteboards are affordable, intuitive and customizable. Teachers can now simply plug in a laptop to start a lesson.

## Optimised for business and education

Whether you're presenting the next big business idea, or trying to capture the imagination of a classroom of students, Ricoh Interactive

Whiteboards are designed with a feature-rich suite of tools built-in to give you the ultimate in collaboration boards.

### Effective split-screen presentation

Using two screens is a standard most expect in work and presentations. Run two different apps or images side by side with the interactive whiteboard and get more from your meetings and classes.

### Powerful audio, slim design

Communication that's loud and clear with high-definition audio. Designed with optimally placed 15w speakers for pitch-perfect presentations. Subtle and stylish, its slim design complements every workspace, at home, office, school or studio.

### 4K UHD display embedded canvas

So much more than a whiteboard. It's a blank canvas for your next big ideas. With a sharp 4K (3,840 x 2,160) screen for presenting detailed images. Fitted with anti-glare film, your team can work comfortably for longer. So, nothing stops your creative flow.

## Simple connectivity and usability

It's easy to sync your device to the screen, simply choose how you connect – HDMI, USB or USB Type-C. Save precious time and cast your PC screen quickly and simply.

Connect your device and watch it instantly appear on the whiteboard via automatic video signal.

## Useful picture-in-picture function

A picture can speak a thousand words – so add an image to your whiteboard with the picture-in-picture function. This could be data, charts or stock shots that help get your point across.

## Auto input detection

Save precious time and cast your PC screen quickly and simply. Connect your device and watch it instantly appear on the whiteboard via automatic video signal.

## Front-facing ports for multi-interfaces

Choose how you connect – HDMI, USB or USB Type-C, it's easy to sync your device to the screen. Practical for everyday use, you'll find operative buttons mounted on the front of the screen.

# Collaboration at your fingertips

## Time-saving screen

The interactive whiteboard is more than a screen, it's an assistant. With built-in calendar and stop watch functionality, you can maximise your meeting time and record each session to as standard.

## Share your screen

The Ricoh Interactive Whiteboard is compatible with all operating systems. Maximise the efficiency of your meetings, classes and creative sessions, display screens at the same time.

## Expandable for business use

Ricoh Creative Collaboration for IWB lets you participate, wirelessly, in multiple video conferences in a single click. So, you can share content without needing additional apps or hardware.

## Plug and Play Android Apps

Embedded with Android OS, you can use all your favourite apps. Many apps are preloaded and ready for use to save you time, such as the whiteboard and wireless presentation apps.
